PROFESSIONAL SUMMARY

Experienced technology professional with 7+ years of experience building scalable systems. Deep expertise in Spark, Terraform, scikit-learn. Proven track record of delivering high-impact projects in fast-paced environments.

TECHNICAL SKILLS

Spark, Terraform, scikit-learn, GCP, Power BI, SQL, Docker, CI/CD, FastAPI

PROFESSIONAL EXPERIENCE

Platform Engineer — Orbit Analytics

Jan 2023 - Present

- Developed machine learning models in GCP improving prediction accuracy by 23%
- Led migration from monolithic architecture to microservices using GCP and CI/CD
- Built and maintained data pipelines processing 50M+ events daily with GCP

ML Engineer — Nexus Software

Mar 2019 - Dec 2023

- Developed machine learning models in Docker improving prediction accuracy by 23%
- Architected multi-region infrastructure on FastAPI supporting 99.99% uptime SLA

EDUCATION

B.S. Information Technology — Northern Tech Institute — 2018

CERTIFICATIONS

AWS Certified Solutions Architect, HashiCorp Terraform Associate, Microsoft Azure Administrator
